HIGH-PRICED ISSUES STRONG

St. Paul, N. Y. Central and Pennsylvania Advance.

TRACTION GROUP ALSO A FEATURE

Easier Money Conditions Help the Market - Copper, After Breaking to 60% Recovers Sharply-The Steel Securities.

NEW YORK, Dec. 17.-Moderate activity

and strength attended the early dealings in today's Stock Market. The strong features included St. Paul, Louisville and Nashville, Union Pacific, New York Central, United States Steel and local traction shares. Amalgamated Copper opened weak and sold down 1% points to 601/2, a new low record price. Later, a rally took place, which carried the price up to 64. New York Central was conspicuous with a rally of nearly 2 per cent from the initial quotations. St. Paul rallied 14 per cent. Pennsylvania recovered a point from the lowest. The local traction group was strong with Manhattan and Brooklyn Rapid Transit up a point. Long Island

advanced 11/2 per cent. "Smelters" Breaks and Recovers.

The American Smelting and Refining stocks opened lower on the reduction in the price of lead. Sugar Refining was steady notwithstanding a reduction in price of the commodity by the refiners outside of the so-called trust.

Easier money conditions caused the rally of Copper and the strength shown in the general market after the opening. Gains of substantial fractions were numerous. The American Smelting stocks recovered fully from their early decline. Sugar showed a little weakness on reports that the company was cutting rates, but sub-sequently rallied. Steel Stocks Show Strength.

The iron and steel shares shared in gen-

eral strength. London's dealings amounted to not over The slow cables prevented more business. There have been good buying or-ders although they were somewhat scat-tered. Throughout the morning the gen-eral market showed a disposition to break away from influence of Copper. Sales of stocks to 1 p. m., 360,200 shares; bonds, \$1,307,000.

is not causing any alarm, it is preventing speculative activity. Small movements in prices from day to day are all that occur in the general list. On some days they are advances and on others fractional declines. This morning the opening was at 7,000 shares and these were mostly sales. a small concession from the closing prices of yesterday, but there was soon a rally which carried the level above yesterday's best in many cases. There was little buying by the public, however, and it seemed evident that the advances were caused by clique sustaining orders in New York Central, St. Paul, and one or two other railway securities, and the trac-

Corrected daily by W. B. Hibbs & Co., members of the New York Stock Exchange, 1419 F of the market will be unimportant during the remainder of the year, or, at least, until after Christmas.

Copper's Erratic Course.

The erratic course of Amalgamated Copper had one of its most picturesque days. The stock dropped with apparently no support to within a fraction of 60 and then began to advance sharply and before

noon had gained four points.
The Street now hears that three months ago when Amalgamated was selling only a trifle under par a director of the coma triffe under par a director of the com-pany, at least one director, told his friends that he had gone short of the stock and would not cover until it reached 60. One Washington speculator "ays that he had a block of the stock at that time and had a small loss on it, and that he immediately sold and took his loss. He says now that this loss is one of the most pleasing events in his entire Stock Market career.

This story and others somewhat similar This story and others somewhat similar to it are so direct and explicit that there is no reason to doubt that some of the insiders at least knew Amalgamated Copper was to have a tremendous drop in price. The situation has an extremely unpleasant look and whatever the condition of the copper trade may be the Street is the copper trade may be the Street is nanimously, that the people engineering

Another Dividend Cut.

The news of the copper trade was that the London market both for the metal and for Copper securities is demoralized with prices still further off and with no relief in sight. The early cables report the failure of a north of England copper firm for \$1,250,000. In Boston also Copper stocks are off badly, even the best of them Illke Calumet and Hecla. The United Verde Company has cut the dividend on its stock from \$1.50 to 75 cents a month.

Clique Supporting Orders. The buying in New York Central, St. Paul, Manhattan, and one or two other securities this morning had much the same appearance as that of two weeks ago, when a sharp advance occurred in these securities in an otherwise uninteresting market. This leads to the sug-gestion that the same clique that engi-

neered the former advance has charge o Copper. No especial news was heard of any of nese securities this morning, though the imultaneous advance of New York Cen-

trai and Manhattan caused a revival of the talk of the advantages that will ac-crue from the reciprocal trackage ar-rangements of the two systems. Earnings of the Steel Trust.

The earnings of the United States Steel Company have been immense up to the present time. The statement is made on inside authority that the net earnings for December will be at least as large as December will be at least as large as those of last month. It is predicted by the same people that the January and February showings will be equally good. The Steel securities were both strong this morning and it was said that Mr. Keene was the buyer of large blocks of both both.

An Atchison Officer's Opinion. An officer of the Atchison is quoted as aying that the earnings of the company continue very heavy and that there is now no doubt that the total for the year

will equal that of last year. Washington Stock Exchange Washington Stock ExendreSales—Capital Traction 4's, \$1,000@
